Front-End Engineering
2017 // Houston, TX

SUMMARY

A progressive web developer with 3+ years of front end and back end experience. As a graduate of The Iron Yard Houston, I am proficient in javascript; structuring and developing responsive web apps. Also highly skilled in back end development tasks such as 3rd party API implementation, NoSQL databases, and RESTful APIs. I am seeking to apply my knowledge and further my career by obtaining a position that offers opportunities for professional growth and achievement. My management background makes me a great team member and the ability to give or take constructive advice, depending on the needs of any given project.

EXPERIENCE

FREELANCE FULL STACK DEVELOPER
BHG REAL ESTATE HOUSTON, TX
JAN 2019 - MAR 2019

- Designing, developing, and maintaining the website utilizing HTML, CSS, Python, Javascript, Django and Postgres to meet the clients' needs and goals.

- Ability for client to add/remove/edit listing information through their own admin dashboard, allowing for full control of all content.

- Diagnosing, troubleshooting and resolving issues with the website and/or server.

- Meeting with the client to review website, and gather the client's specifications for new or existing features.

MANAGER - LEAD SUPERVISOR
IDAD INC. HOUSTON, TX - HONOLULU, HI
JUN 2008 - DEC 2015 | JUN 2018 - DEC 2018

- Improving efficiency of inventory, labor and point-of-sale management using Oracle Micros POS.

- Training and development of productive staff while maintaining solid relationships with other management.

- Delegating responsibilities and oversee employee work to ensure compliance with company policies, regulations and safety guidelines.

- Prepare a variety of administrative/operations reports and records; timesheets, orders, inventories, cash deposits, etc.

- Effective management leading to the achievement of our financial goals.

PROJECTS
